

NeuralMetrics™

FOCUSED INTELLIGENCE FOR RISK EVALUATION

Client Value

- > Engagements with **four of the top ten** U.S. commercial lines insurers
- > Surpassed **1M+** risk intelligence data requests
- > AI/ML-driven automation promotes sustainable environmental, social, and governance (**ESG**) practices

Global Team

- > **60+** globally distributed team of data scientists, engineers, and insurance professionals
- > **120+** years of combined experience in the leadership team
- > Presence in India, Middle East, Europe, and North America for **24/7** support

AI-Generated Data

- > Rich, transparent data insights to drive **P&C insurance risk-assessment** productivity, compliance, and cost savings
- > State-of-the art **API-driven, cloud-first** risk intelligence delivery platform

Underwriting Excellence

- > Reinforcing **operational priorities**: in-appetite risk selection, lessors' risk assessment, book roll analytics, exposure monitoring, premium audit, and renewal management

Gain risk quality intelligence instantaneously and transparently from dynamic information sources.
